

Parking Hours

Zone E allows two-hour parking without a permit during times designated on the signs posted in your area. With a Zone E permit properly displayed on the driver's side bumper of your vehicle, you may park beyond the posted time limits.

The Zone E map is intended as a guide only. Check signs carefully before parking.

Zone E parking permits must be displayed on the driver's side bumper and the entire permit must be clearly visible.

Vehicles with permits not diplayed correctly may be cited by the City of Eugene
